DELRAY / THE ART OF FIREPLACES

DRL4813-2

DELRAY / SINGLE SIDED

Venting Kits

Everything to complete your direct venting system in one kit. Comes complete with termination, wall thimble and flex pipe

Conversion Kit

Convert to propane in minutes with our simple drop in burner system

Trim Kits

For uneven and ledgestone finishing, we developed a slim finishing kit that fits directly to the fireplace frame to conceal the finished edge.

These kits are adjustable and can cover finishing depths up to 2"

MONTIGO

Meets requirements for efficiency rebates

141/4 framing depth

Mobile home compatible

Convertible to co-linear venting

Header must be on edge to meet clearance to venting

DELRAY LINEAR COMBUSTIBLE FACING

IMPORTANT Leaving the venting ports open requires a minimum chase height of 6' (see below for sizes)

DRL36 Minimum 70² inch opening DRL48 Minimum 100² inch opening

1976: The Days Before Gas Fireplaces

In 1976, Montigo president and founder, Dan Binzer in 1976, Montigo president and founder, Dan Binzer, started installing zero-clearance wood burning fireplaces for local builders in Vancouver, BC. Over the years, demand grew for a gas alternative, and Dan engineered and manufactured the first ever sandpan logset. The logset was installed in a zero-clearance wood burning fireplaces shell, resulting in one of the first zero-clearance gas fireplaces on the market.

1985: Gas Fireplace Manufacturing Begins

Demand for gas grew rapidly, especially among multi-unit developments so Dan Binzer started a company called Canadian Heating that would offer full service design, engineering and manufacturing for gas fireplaces. Under the Montigo brand, Canadian Heating began manufacturing and selling a wide selection of zero-clearance gas fireplaces throughout Canada and in 1985 development began for the latest and greatest in gas fireplace technology – direct venting.

1994: Manufacturing Excellence is Achieved

Development and advancement of the gas fireplace continued over the years with continual developments to improve the efficiency of the fireplaces and perfected manufacturing processes to deliver an optimum fireplace each and every time – even for completely custom units.

Present: Leading the Way with Modern Fireplace Design

As one of the first to bring a linear designed fireplace to market, Montigo now offers the largest selection of linear fireplaces demanded by designers, architects and homeowners wanting to create a modern and contemporary space and homeowners wanting to create a modern and contemporary space.
