Boulevard 60-inch Direct-Vent Linear Fireplace with Ridgeback Corrugated Liner, and Logs, Rocks and Coils (shown in tile custom surround)

Boulevard 48-inch Direct-Vent Linear See-Through Fireplace with Ledgestone Liner, Matte Black Trim Kit, and Clear Frost Crushed Glass (Ledgestone Liner available for DVLL48SP only)

Boulevard 72-inch Direct-Vent Linear Fireplace with Black Glass Liner, Driftwood Log Set, Multi-color LED Lighting, and Clear Frost Crushed Glass (shown in tile custom surround)

BIG, BOLD, BOULEVARD.

Boulevard Linear Fireplaces provide the perfect scale for today's large spaces – from a spacious family room to a hotel lobby to an upscale restaurant.

Tailor the Boulevard fireplace starting with an elegant reflective black liner that goes well with any décor. Or opt for an industrial chic look with the Ridgeback liner – a corrugated metal liner finished in distressed bronze. For the perfect ambiance indoors and out, choose the Boulevard 48 see-through fireplace with optional indoor/outdoor kit, and customize with a sleek porcelain black liner or rugged LedgeStone liner.

The fully recessed burner fills the fireplace with lively flames. Crushed glass covers the fireplace floor (available in a variety of colors), while the lighting lets you set the perfect mood. Select translucent shades of crushed glass to allow the under-floor lighting system to shine through, or choose to accent with other glass colors including our droplets.

The available Rustic Log Set includes a unique assortment of ceramic fiber logs and stones, plus coiled slivers of stainless steel that react to the light and flames to bring your fireplace to life. Additionally, a Driftwood log set is available for the Boulevard 72.

Modern Technology – Intuitive Control

Boulevard 48 See-Through, 60 Single-Sided, and 72 Single-Sided fireplaces ship with a multifunction thermostat remote control that operates the variable burner, accent lighting, and optional blower. Boulevard 72 fireplaces have a wall-mounted two-button control to operate the multi-color LED lights.

Every Boulevard includes an electronic intermittent ignition system that eliminates the standing pilot to help you save energy and money. The system includes battery back-up located in a wall box for manual or remote operation. The remote allows you to switch to a standing pilot mode, which is recommended in cold climate conditions.

Installation Versatility

Add tile right up to the rectangular opening to create a stunningly beautiful, amazingly efficient clean-face fireplace. The optional trim kit finishes the opening and adjusts for different depths of tile or stone.

The Boulevard 48 See-Through installs as a convenient see-through on an interior wall, but also works as an indoor/outdoor see-through on an exterior wall (requires DFED489SS outdoor kit).
